Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 6) ☐ Other: _____.

DETAILED ACTION***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(h)(3), which states "The ends of the broken line should be designated by Arabic or Roman numerals corresponding to the view number of the sectional view". Therefore "C—C" should be 3—3 or III—III, D—D should be 4—4 or IV—IV, etc. Also, the originally submitted drawing have numerous stray marks and higher quality drawings should be submitted. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The specification (references to sectional lines) should be amended in accordance with the drawing changes required above.

Claim Objections

3. Claim 1 is objected to because "magnetic coil (5)" should read "magnetic coil (3)".

Claim Rejections - 35 USC § 112

4. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention:

In claim 1, and throughout the claims, as independent claim 1 recites "at least one alternatively excitable magnetic coil or electromagnet", subsequent references to "at least one magnetic coil" must be made clear as to whether they refer back to said at least one magnetic coil or electromagnet.

In claim 1, line it is unclear what is meant by "the faces the contact surface at least one magnetic coil".

In claim 4, the phrase "at least one magnetic coil (3) arranged with axes parallel to each other" make unclear how many coils are required.

Claim 5 is indefinite because it depends from itself. Should probably depend from claim 4.

Claims 6, 7, 9, 10, 13 and 20 are render indefinite by the terms especially, preferably, particularly and if necessary, which make unclear what is actually required.

Art Unit: 1723

Claim 15 is further rendered indefinite by the phrase "a higher electrical conductivity value relative to conventional conductivity of plastics", because "conventional conductivity of plastics" is not a reasonably specific value.

Allowable Subject Matter

5. Claims 1-20 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. Independent claim 1 is distinguish over close prior art references such as Herz et al. (US 4,568,195) by the specific location of the claimed circuit board relative the other claimed elements.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
